For purposes of carrying out the provisions of this Act with respect to the river designated by this paragraph there are authorized to be appropriated such sums as may be necessary.”

(b) (1) Notwithstanding any requirement to the contrary contained in section 6(c) of the Wild and Scenic Rivers Act, within one hundred and eighty days after the date of enactment of this Act, the Secretary shall publish in the Federal Register general guidelines for land and
water use control measures to be developed and implemented by the appropriate officials of the States of New York and Pennsylvania (hereinafter referred to as the “directly affected States”), by the local political subdivisions, and by the Delaware River Basin Commission (hereinafter referred to as the “Commission”). The Secretary shall provide for participation in the development of the said general guidelines by all levels of State, county, and local government, and concerned private individuals and organizations, and also shall seek the advice of the Upper Delaware Citizens Advisory Council established in subsection (f) (hereinafter referred to as the “Advisory Council”). In each of the directly affected States, prior to publication of such general guidelines, public hearings shall be conducted by the Secretary or his designee, in the region of the Upper Delaware River designated by subsection (a) (hereinafter in this section referred to as the “Upper Delaware River”).

(2) The Secretary may from time to time adopt amended or revised guidelines and shall do so in accordance with the provisions of paragraph (1) hereof.

(c)(1) Within three years from the date of the enactment of this Act, the Secretary, in cooperation with the Commission, the Advisory Council, the directly affected States and their concerned political subdivisions and other concerned Federal agencies, shall develop, approve, and submit to the Governors of the directly affected States a management plan (hereinafter in this section referred to as the “management plan” or “the plan”) for the Upper Delaware River which shall provide for as broad a range of land and water uses and scenic and recreational activities as shall be compatible with the provisions of this section, the Wild and Scenic Rivers Act, and the general guidelines for land and water use controls promulgated by the Secretary under the provisions of subsection (b).

(2) The plan shall apply to the Upper Delaware River and shall set forth—

(A) a map showing detailed final landward boundaries, and upper and lower termini of the area and the specific segments of the river classified as scenic and recreational, to be administered in accordance with such classifications;

(B) a program for management of existing and future land and water use, including the application of available management techniques;

(C) an analysis of the economic and environmental costs and benefits of implementing the management plan including any impact of the plan upon revenues and costs of local government;

(D) a program providing for coordinated implementation and administration of the plan with proposed assignment of responsibilities to the appropriate governmental unit at the Federal, regional, State, and local levels; and

(E) such other recommendations or provisions as shall be deemed appropriate to carry out the purposes of this section.

(3) Immediately following enactment of this Act, the Secretary, through the National Park Service or such other designee, shall develop and implement such interim programs as he shall deem necessary and appropriate to protect the Upper Delaware River and its environs and to protect the public health and safety. Such interim programs shall include provisions for information to river users, education and interpretation activities, and regulation of recreational use of the river.
(4) To enable the directly affected States and their political subdivisions to develop and implement programs compatible with the management plan, the Secretary shall provide such technical assistance to the said States and their political subdivisions as he deems appropriate.

(5) The Secretary shall promote public awareness of and participation in the development of the management plan, and shall develop and conduct a concerted program to this end. Prior to final approval of the management plan, the Secretary shall hold two or more public hearings in the Upper Delaware River region of each directly affected State.

(6) Upon approval of the management plan by the Secretary, it shall be published in the Federal Register and shall not become effective until ninety days after it shall have been forwarded to the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. The plan shall be administered by the Secretary in accordance with the provisions of this section and the Wild and Scenic Rivers Act. The Secretary is hereby granted such authority as may be required to implement and administer said plan.

(d) Notwithstanding any provision of the Wild and Scenic Rivers Act, the Secretary may not acquire more than a total of four hundred and fifty acres of land and interests in land for access, development sites, the preservation of scenic qualities, or for any other purposes: Provided, That the Secretary may acquire additional land and interests in land for such purposes not in excess of one thousand acres if such additional acquisition is recommended and provided for in the management plan as finally approved by the Secretary. The limitations contained in this section shall not apply under the circumstances set forth in subsection (e) (4) of this section. Prior to acquisition of any land or interests in land which has been used for business purposes during the annual period immediately preceding the date of the enactment of this Act, the Secretary shall first make such efforts as he deems reasonable to acquire easements or restrictive covenants, or to enter into any other appropriate agreements or arrangements with the owners of said land, consistent with the purposes of this section.

(e) (1) For the purpose of protecting the integrity of the Upper Delaware River, the Secretary shall review all relevant local plans, laws, and ordinances to determine whether they substantially conform to the approved management plan provided for in subsection (e) and to the general guidelines promulgated by the Secretary pursuant to subsection (b). Additionally, the Secretary shall determine the adequacy of enforcement of such plans, laws, and ordinances, including but not limited to review of building permits and zoning variances granted by local governments, and amendments to local laws and ordinances.

(2) The purpose of such reviews shall be to determine the degree to which actions by local governments are compatible with the purposes of this section. Following the approval of the management plan and after a reasonable period of time has elapsed, but not less than two years, upon a finding by the Secretary that such plans, laws, and ordinances are nonexistent, are otherwise not in conformance with the management plan or guidelines, or are not being enforced in such manner as will carry out the purposes of this section (as determined by the Secretary), the Secretary may exercise the authority available to him under the provisions of paragraph (4) hereof.
(3) To facilitate administration of this section, the Secretary may contract with the directly affected States or their political subdivisions to provide, on behalf of the Secretary, professional services necessary for the review of relevant local plans, laws, and ordinances, and of amendments thereto and variances therefrom, and for the monitoring of the enforcement thereof by local governments having jurisdiction over any area in the region to which the management plan applies. The Secretary shall notify the appropriate State or local officials as to the results of his review under this section within forty-five days from the date he receives notice of the local government action.

(4) In those sections of the Upper Delaware River where such local plans, laws, and ordinances, or amendments thereto or variances therefrom, are found by the Secretary not to be in conformance with the guidelines or the management plan promulgated pursuant to subsections (b) and (c) of this section, respectively, or are not being enforced in such manner as will carry out the purposes of this section (as determined by the Secretary), the Secretary is hereby authorized to acquire land or interests in land in excess of the acreage provided for in subsection (d) of this section. Land and interests in land acquired pursuant to this subsection shall be restricted to the geographical area of the local governmental unit failing to conform with the said guidelines or management plan, and shall be limited to those lands clearly and directly required, in the judgment of the Secretary, for protection of the objectives of this Act. The total acreage of land and interests in land acquired pursuant to this subsection shall not in any event exceed the limitations contained in section 6(a) of the Wild and Scenic Rivers Act. This subsection shall apply notwithstanding the first sentence of section 6(e) of the Wild and Scenic Rivers Act. Notwithstanding any limitation on amounts authorized to be appropriated for acquisition of land and interests in land which is contained in section 3(a)(21) of the Wild and Scenic Rivers Act or in any other provision of law, there are authorized to be appropriated such sums as may be necessary to carry out this subsection.

(f) (1) At the earliest practicable date following enactment of this Act, but no later than one hundred and twenty days thereafter, there shall be established an Upper Delaware Citizens Advisory Council. The Advisory Council shall encourage maximum public involvement in the development and implementation of the plans and programs authorized by this section. It shall report to the Commission and the Secretary from time to time during preparation of the management plan. Following completion of the management plan, it shall report to the Secretary and the Governors of the directly affected States no less frequently than once each year its recommendations, if any, for improvement in the programs authorized by this Act, or in the programs of other agencies which may relate to land or water use in the Upper Delaware River region.

(2) Membership on the Advisory Council shall consist of seventeen members appointed as follows: there shall be—

(A) six members from each of the directly affected States appointed by the Secretary from nominations submitted by the legislatures of the respective counties and appointed such that two members shall be from each of Orange, Delaware, and Sullivan Counties, New York, and three members shall be from each of Wayne and Pike Counties, Pennsylvania (at least one appointee from each county shall be a permanent resident of a municipality abutting the Upper Delaware River);
(B) two members appointed at large by each Governor of a directly affected State; and

(C) one member appointed by the Secretary.

The Secretary shall designate one of the aforesaid members to serve as Chairperson of the Advisory Council who shall be a permanent resident of one of the aforesaid counties. Vacancies on the Advisory Council shall be filled in the same manner in which the original appointment was made. Members of the Advisory Council shall serve without compensation as such, but the Secretary is authorized to pay expenses reasonably incurred by the Advisory Council in carrying out its responsibilities under this Act on vouchers signed by the Chairman.

(g) With respect to the land and water in areas which are not owned by the United States but which are within the boundaries of the segment of the Delaware River designated as a wild and scenic river under subsection (a), the Secretary is authorized to enter into contracts with the appropriate State or political subdivisions thereof pursuant to which the Secretary may provide financial assistance to such State or political subdivision for purposes of—

(1) enforcing State and local laws in such areas, and

(2) removing solid waste from such areas and disposing of such waste.

(h) Nothing in this section shall be construed as limiting the right to fish and hunt on any of the lands or waters within the boundaries of the Upper Delaware River in the manner provided in section 18 of the Wild and Scenic Rivers Act.

(i) There are hereby authorized to be appropriated to carry out the purposes of this section such sums as may be necessary.

(j) Where any provision of the Wild and Scenic Rivers Act is inconsistent with any provisions of this section, the provision of this section shall govern. In applying the provisions of section 6(g)(3) of the Wild and Scenic Rivers Act, with regard to “improved property”, the date specified therein, shall, for purposes of the river designated in this Act, be the date of enactment of this Act (rather than January 1, 1967).

Sec. 801. Within the War in the Pacific National Historical Park, Guam, and the American Memorial Park, Saipan, the Secretary, acting through the Director of the National Park Service, and in consultation with the Governor of each area, is authorized to provide in each of these parks some form of appropriate recognition of the outstanding contributions and untiring commitments of the late Congressman William M. Ketchum of California toward the needs of the people of the insular areas. Fully cognizant of sacrifices that sometimes must be made in order to preserve the basic principles of democracy, Congressman Ketchum personally experienced the devastations of war, as he served with distinction in the United States military during the Second World War in the Pacific Theater and during the Korean Conflict. Congressman Ketchum, an individual of strong principle and commitment, through his leadership and active participation in the United States Congress, made substantial and invaluable contributions to the political and economic growth, development, and well-being of American Samoa, Guam, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and the Virgin Islands. In particular, he will be remembered for the key role he played in the passage of the historic Covenant to establish a Commonwealth of the Northern Mariana Islands in political union with the United States.

Title IX—Jean Lafitte National Historical Park

Sec. 901. In order to preserve for the education, inspiration, and benefit of present and future generations significant examples of natural and historical resources of the Mississippi Delta region and to provide for their interpretation in such manner as to portray the development of cultural diversity in the region, there is authorized to be established in the State of Louisiana the Jean Lafitte National Historical Park and Preserve (hereinafter referred to as the “park”). The park shall consist of (1) the area of approximately twenty thousand acres generally depicted on the map entitled “Barataria Marsh Unit—Jean Lafitte National Historical Park and Preserve” numbered 90,000B and dated April 1978, which shall be on file and available for public inspection in the office of the National Park Service, Department of the Interior; (2) the area known as Big Oak...
(2) the mining operation will disturb the minimum amount of surface necessary to extract the mineral; and
(3) the surface is not significantly disturbed, unless there is no technologically feasible alternative.
(b) The harvesting of timber on federally owned lands within the national river boundary is prohibited, except insofar as it is necessary for the Secretary to remove trees for river access, historic sites, primitive campgrounds, scenic vistas, or as may be necessary from time to time for reasons of public health and safety.
(c) The owner of a mineral estate subject to this section who believes he has suffered a loss by operation of this section, may bring an action only in a United States district court to recover just compensation, which shall be awarded if the court finds that such loss constitutes a taking of property compensable under the Constitution.

Except in emergencies, any rules and regulations of the Secretary pursuant to this section shall be put into effect only after consultation with the appropriate State agency responsible for hunting and fishing activities.

Sec. 1107. The Federal Energy Regulatory Commission shall not license the construction of any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063) as amended (16 U.S.C. 791a et seq.), on or directly affecting the New River Gorge National River, and no department or agency of the United States shall assist by loan, grant, license, or otherwise in the construction of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the Secretary. Nothing contained in the foregoing sentence, however, shall preclude licensing of, or assistance to, developments below or above the New River Gorge National River or on any stream tributary thereto which will not invade the area or diminish the scenic, recreation, and fish and wildlife values present in the area on the date of this section. No department or agency of the United States shall recommend authorization of any water resources project that would have a direct and adverse effect on the values for which such river was established, as determined by the Secretary, or request appropriations to begin construction on any such project whether heretofore or hereafter authorized, without advising the Secretary in writing of its intention to do so at least sixty days in advance, and without specifically reporting to the Congress in writing at the time it makes its recommendation or request in what respect construction of such project would be in conflict with the purposes of this section and would effect the national river and the values to be protected by it under this section.

Sec. 1108. Section 5(a) of the Act of October 2, 1968 (82 Stat. 910) is hereby amended to provide for study of three principal tributaries of the New River in West Virginia, by adding the following new paragraphs:

Sec. 1111. For the purposes of part C of the Clean Air Act, the State may redesignate the national river only as class I or class II.

Sec. 1112. There are hereby authorized to be appropriated such sums as may be necessary for the purposes of this title, but not to exceed $20,000,000 for the acquisition of lands and interests in lands, and not to exceed $500,000 for development.
