

## **APPENDIX B**

---

# **BUREAU OF LAND MANAGEMENT (BLM) AND NATIONAL PARK SERVICE (NPS) LIST OF RIVERS**

# APPENDIX B – BLM AND NPS LIST OF RIVERS

The Bureau of Land Management (BLM) is a cooperating agency with the Forest Service. A Memorandum of Understanding between the two agencies was signed in 2007. This appendix contains information for the following BLM river segments: Grand Staircase-Escalante National Monument and Kanab, Moab, Monticello, Price, Richfield, St. George, and Vernal Field Offices. In March 1999, the St. George Field Office completed their Record of Decision and Resource Management Plan (USDI BLM 1999). In February 2000, the Grand Staircase-Escalante National Monument completed their Approved Management Plan Record of Decision (USDI BLM 2000). In September 2008, the Monticello Field Office completed its Proposed Resource Management Plan and Final Environmental Impact Statement, but has not signed a final decision. It is possible that when the BLM approves the final decision for the Monticello Field Office that the Preferred Alternative and determination of suitability may differ from what is presented in this appendix. However, this is the best available data. In October 2008, the Kanab Field Office, Moab, Price, Richfield, and Vernal Field Offices of the BLM completed their Record of Decisions and Approved Resource Management Plans (USDI BLM 2008).

Two National Park Service units in Utah have completed Wild and Scenic River suitability determinations during their General Management Plan process. They are Natural Bridges National Monument and Zion National Park.

## Kanab Field Office (BLM)

The information for Table 1 was obtained from the Kanab Proposed Resource Management Plan and Final Environmental Impact Statement (July 2008), Chapter 2, Wild and Scenic Rivers, pages 2-51 to 2-2-55. The information was confirmed in the Kanab Field Office Record of Decision and Approved Resource Management Plan (USDI BLM 2008). Table 1 contains a list of river segments that have been found suitable and not suitable for designation.

**Table 1. List of river segment, miles, and suitability determination and tentative classifications for the Proposed RMP.**

<b>Kanab Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<b>North Fork Virgin River</b> • Segment 48-49 Section 31 - 33 (northeast of Zion NP)	2.2	Suitable - Wild
<b>East Fork Virgin River</b> • Segment 37-40a • Segment 40a-41 • Segment 36-37	5.4 5.2 2.9	Suitable - Scenic Suitable - Wild Not Suitable
<b>Orderville Gulch (Esplin Gulch)</b> • Segment 44-45 Zion NP Boundary to the Falls. Esplin Gulch Segment 45 to 45A.	3.2	Suitable - Wild
<b>Meadow Creek / Mineral Gulch</b> • Segments 33-35 and 35-38 - South of Highway 9 to the confluence of Mineral Gulch, then to the confluence with East Fork Virgin River.	9.2	Suitable - Wild
<b>Deep Creek</b> • Segment 50-51 from the Washington County line to the BLM boundary in Section 30.	0.7	Not Suitable
<b>Cottonwood Creek</b> • Segment 28-29 beginning in Section 10 at the BLM boundary ending at confluence with Indian Canyon.	1.1	Not suitable
<b>Indian Canyon</b> • Segment 26-27 from the head of the canyon to confluence with Cottonwood Creek.	0.7	Not suitable
<b>South Fork Indian Canyon</b> • Segment 22-23 from the head of South Fork Indian Canyon to BLM boundary in northeast corner of Section 20.	1.8	Not suitable

<b>Kanab Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<b>North Branch of South Fork Indian Canyon</b> • Segment 24-25 from the point where the canyon deepens to BLM boundary in southeast corner of Section 17.	0.4	Not suitable
<b>Water Canyon</b> • Segment 20-21 from the point where the canyon deepens to the BLM boundary in Section 21.	3.2	Not suitable
<b>Hell Dive Canyon</b> • Segment 30-31 from the point where the canyon deepens to the confluence with Cottonwood Creek.	1.4	Not suitable
<b>Paria River</b> • Segment 68-69 beginning at Wilderness/GSENM boundary to Arizona border. Entire segment is within Paria Canyon Vermilion Cliffs Wilderness.	4.8	Suitable - Wild
<b>Three Mile Creek</b> • Segment 56-57 Beginning at Forest boundary in Section 11 to BLM boundary in Section 7.	3.7	Not suitable

## Moab Field Office (BLM)

The information for Table 2 was obtained from the Moab Field Office, Proposed Resource Management Plan and Final Environmental Impact Statement (August 2008), pages 2-39 to 2-44. The information was confirmed in the Moab Field Office Record of Decision and Approved Resource Management Plan (USDI BLM 2008). Table 2 contains a list of river segments that have been found suitable and not suitable for designation.

**Table 2. List of river segment, miles, and suitability determination and tentative classifications for the Proposed RMP.**

<b>Moab Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<b>Beaver Creek</b> • Segment 1 – Forest Service boundary to one mile from Dolores River • Segment 2 – One mile to Dolores River	7.7	Segment 1 – Not suitable Segment 2 – Not suitable
<b>Colorado River</b> • Segment 1 – Colorado-Utah state line to Westwater Canyon • Segment 2 – Westwater Canyon (Mile 125) to River Mile 112 • Segment 3 – River Mile 112 to confluence with the Dolores River • Segment 3(a) – River Mile 112 to Cisco Wash  • Segment 3(b) – Cisco Wash to confluence with the Dolores River  • Segment 4 – Confluence of the Colorado River with the Dolores River to River Mile 49 near Potash  • Segment 5 – River Mile 44.5 to Mile 38.5  • Segment 6 – River Mile 37.5 to Mile 34 at the Canyonlands National Park boundary	66.5	Segment 1 – Not suitable Segment 2 – Suitable– Wild  Segment 3(a) – Suitable– Scenic Segment 3(b) – Suitable– Recreational Segment 4 – Suitable– Recreational  Segment 5 – Suitable– Scenic Segment 6 – Suitable– Scenic
<b>Cottonwood Canyon</b> • Source near Cottonwood Point to private land (includes the first ½ mile of Horse Canyon)	10.4	Not suitable
<b>Dolores River</b> • Segment 1 – Colorado State line to Fisher Creek  • Segment 2 – Fisher Creek to Bridge Canyon  • Segment 3 – Bridge Canyon to Colorado River	22.0	Segment 1 – Suitable– Recreational Segment 2 – Suitable– Scenic Segment 3 – Suitable– Recreational
<b>Green River</b> • Segment 1 – Coal Creek to Nefertiti Boat Ramp • Segment 2 – Nefertiti Boat Ramp to Swasey's Boat Ramp	99.0	Segment 1 – Suitable–Wild Segment 2 – Suitable–

<b>Moab Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<ul style="list-style-type: none"> <li>• Segment 3 – Swasey's Boat Ramp to I-70 Bridge</li> <li>• Segment 3(a) – Swasey's Boat Ramp to River Mile 97 (confluence with the San Rafael River; combination of Segment 3 and part of Segment 4)</li> <li>• Segment 4 – I-70 Bridge to River Mile 91 below Ruby Ranch</li> <li>• Segment 4(a) – Mile 97 at the confluence with the San Rafael River to Canyonlands National Park boundary</li> <li>• Segment 5 – Mile 91 below Ruby Ranch to Hey Joe Canyon</li> <li>• Segment 6 – Hey Joe Canyon to Canyonlands National Park Boundary</li> </ul>		Recreational Segment 3 – Not suitable Segment 3(a) – Not suitable  Segment 4 – Not suitable Segment 4(a) – Suitable–Scenic Segment 5 – Not suitable Segment 6 – Not suitable
<b>Mill Creek</b> <ul style="list-style-type: none"> <li>• Segment 1 – National Forest boundary to private property below diversion</li> <li>• Segment 2 – T26S, R23E, Section 19 to Power Dam</li> </ul>	6.0	Segment 1 – Not suitable Segment 2 – Not suitable
<b>Negro Bill Canyon</b> <ul style="list-style-type: none"> <li>• Segment 1 – From state land below rim to ¼ mile from Colorado River</li> <li>• Segment 2 – Last ¼ mile to Colorado River</li> </ul>	7.4	Segment 1 – Not suitable Segment 2 – Not suitable
<b>North Fork Mill Creek</b> <ul style="list-style-type: none"> <li>• National Forest boundary near Wilson Mesa to Mill Creek</li> </ul>	11.2	Not suitable
<b>Onion Creek</b> <ul style="list-style-type: none"> <li>• Segment 1 – Source to Onion Creek Road</li> <li>• Segment 2 – Beginning of Onion Creek Road to Colorado River</li> </ul>	12.5	Segment 1 – Not suitable Segment 2 – Not suitable
<b>Professor Creek</b> <ul style="list-style-type: none"> <li>• National Forest and state land boundary to diversion near private land</li> </ul>	7.4	Not suitable
<b>Rattlesnake Canyon</b> <ul style="list-style-type: none"> <li>• Source to Green River (including Flat Nose George Tributary)</li> </ul>	31.6	Not suitable
<b>Salt Wash</b> <ul style="list-style-type: none"> <li>• Arches National Park boundary to Colorado River</li> </ul>	0.3	Salt Wash to be deferred until NPS does suitability on portion within Arches National Park. It would remain eligible...By default, the lower 0.25 miles of this 0.3 mile segment is within Segment 4 of the Colorado River. Consequently, it would be managed as suitable with a recreation classification.
<b>Thompson Canyon</b> <ul style="list-style-type: none"> <li>• Source of Thompson to Fisher Creek (Cottonwood Canyon; tributary of Dolores River)</li> </ul>	5.5	Not suitable

## Monticello Field Office (BLM)

The information for Table 3 was obtained from the Monticello Field Office, Proposed Resource Management Plan and Final Environmental Impact Statement (August 2008), Table 2.1 – Summary Table of the Proposed Plan and All Alternatives, pages 2-64 to 2-71. Table 3 contains a list of river segments that have been found suitable and not suitable for designation.

**Table 3. List of river segment, miles, and suitability determination and tentative classifications for the Proposed RMP.**

<b>Monticello Field Office Proposed Resource Management Plan and Final Environmental Impact Statement River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<b>Colorado River</b> <ul style="list-style-type: none"> <li>• Segment 1: Northern most MFO boundary on east side of Colorado River (1 mile north of Potash land) south to private land.</li> <li>• Segment 2: State lands near River Mile 44 to approximately River Mile 38.5.</li> <li>• Segment 3: From approximately River Mile 37.5 at State land to boundary of Canyonlands NP near River Mile 31.</li> </ul>	2.2 5.5 6.5	Not Suitable Suitable–Scenic Suitable–Scenic
<b>Indian Creek</b>	4.8	Not Suitable

Monticello Field Office Proposed Resource Management Plan and Final Environmental Impact Statement River Segment	Miles	Proposed RMP Tentative Classification
• Forest boundary to Donnelly Canyon		
<b>Fable Valley</b> • Source to mouth at Gypsum Creek	6.8	Not Suitable
<b>Dark Canyon</b> • Youngs Canyon to GCNRA	6.4	Suitable–Wild
<b>San Juan River</b> • #1: North side – MFO, portions are within San Juan River SRMA; South side Navajo Nation. • #2: North side – MFO, portions are within San Juan River SRMA; South side – Navajo Nation • #3: North side – MFO, San Juan River SRMA; South side – Navajo Nation. • #4: North side – MFO; South side – Navajo Nation. • #5: North side – MFO, San Juan River SRMA and Cedar Mesa ACEC; South side – Navajo Nation.	8.5 10 13.3 4.2 17.3	Not Suitable Not Suitable Not Suitable Not Suitable Suitable–Wild
<b>Arch Canyon</b> • Forest boundary to ½ mile west of its confluence with Comb Wash.	6.9	Not Suitable

## Price Field Office (BLM)

The information for Table 4 was obtained from the Price Field Office, Proposed Resource Management Plan and Final Environmental Impact Statement (August 2008), Table 2-20 – Wild and Scenic Rivers, pages 2-124 to 2-141. It is available on the web at:

[http://www.blm.gov/ut/st/en/fo/price/planning/Proposed\\_RMP\\_Final\\_EIS.html](http://www.blm.gov/ut/st/en/fo/price/planning/Proposed_RMP_Final_EIS.html). The information was confirmed in the Price Field Office Record of Decision and Approved Resource Management Plan (USDI BLM 2008). Table 4 contains a list of river segments that have been found suitable and not suitable for designation.

**Table 4. List of river segment, miles, and suitability determination and tentative classifications for the Proposed RMP.**

Price Field Office Record of Decision and Approved Resource Management Plan River Segment	Miles	Proposed RMP Tentative Classification
<b>Barrier Creek</b> • Canyonlands National Park boundary to mouth at Green River.	13.7	Not Suitable
<b>Bear Canyon Creek</b> • Headwater to mouth at Rock Creek.	6.7	Not Suitable
<b>Buckskin Canyon Creek</b> • Headwaters to mouth at Rock Creek.	6.1	Not Suitable
<b>Cane Wash</b> • Head of wash to mouth at San Rafael River.	20.7	Not Suitable
<b>Coal Wash</b> • North and South Forks of Coal Wash to confluence with North Salt Wash.	5.3	Not Suitable
<b>Cottonwood Wash</b> • Head of wash to county road at T. 20 S., R. 13 E., Sec. 14.	6.1	Not Suitable
<b>Fish Creek</b> • Scofield Reservoir to confluence with White River.	10.2	Not Suitable
<b>Gordon Creek</b> • Confluence of Bob Wright and Mud Water Canyons to mouth at Price River.	13.1	Not Suitable
<b>Green River</b> • County line near Nine Mile Creek to Chandler Canyon (Desolation Canyon) • Chandler Creek to Florence Creek (Desolation Canyon) • Florence Creek to Nefertiti boat ramp (Desolation and Gray Canyons) • Nefertiti boat ramp to Swaseys boat ramp • Swaseys boat ramp to I-70 bridge • I-70 bridge to mile 91 below Ruby Ranch (to Confluence with San Rafael River in Proposed RMP) • Confluence with San Rafael River to Canyonlands National Park (Proposed RMP only) • Mile 91 below Ruby Ranch to Hey Joe Canyon	169	Suitable - Wild Suitable - Scenic Suitable - Wild Suitable - Recreational Not Suitable Not Suitable  Suitable - Scenic  See Confluence with San

<b>Price Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
• Hey Joe Canyon to Canyonlands National Park Boundary		Rafael River to Canyonlands NP above. See Confluence with San Rafael River to Canyonlands NP above.
<b>Keg Spring Canyon</b> • Head of canyon to mouth at Green River	8.7	Not Suitable
<b>Muddy Creek</b> • I-70 to Lone Tree Crossing • Lone Tree Crossing to South Salt Wash • South Salt Wash to county road downstream of San Rafael and North Caineville Reefs.	53.6	Not Suitable Not Suitable Not Suitable
<b>Nine Mile Creek</b> • Minnie Maude Creek to Bulls Canyon	43.9	Not Suitable
<b>North Fork Coal Wash</b> • Head of wash to Fix It Pass route • Fix It Pass route to confluence with South Fork Coal Wash	10.5	Not Suitable Not Suitable
<b>North Salt Wash</b> • Confluence with Horn Silver Gulch to mouth at San Rafael River	12.3	Not Suitable
<b>Price River</b> • Confluence of Fish Creek and White River to Poplar Street bridge in Helper • Mounds bridge to Book Cliffs escarpment • Book Cliffs escarpment to mouth at Green River	100.6	Not Suitable Not Suitable Not Suitable
<b>Range Creek</b> • Headwaters to Trail Canyon • Trail Canyon to drill holes at T.17 S., R. 16 E., Sec. 27 • Drill holes at T. 17 S., R. 16 E., Sec. 27 to mouth at Green River	38.8	Not Suitable Not Suitable Not Suitable
<b>Rock Creek</b> • North Fork headwaters to mouth at Green River	15.2	Not Suitable
<b>San Rafael River</b> • Confluence of Ferron and Cottonwood Creeks to Fuller Bottom • Fuller Bottom to Johansen corral • Johansen corral to Lockhart Wash • Lockhart Wash to Tidwell Bottom • Tidwell Bottom to mouth at Green River	105.5	Not Suitable Not Suitable Not Suitable Not Suitable
<b>South Fork Coal Wash</b> • Head of wash to Eva Conover route • Eva Conover route to confluence with North Fork Coal Wash	11	Not Suitable Not Suitable

## Richfield Field Office (BLM)

The information for Table 5 was obtained from the Richfield Field Office, Proposed Resource Management Plan and Final Environmental Impact Statement (August 2008), Table 2-20 – Wild and Scenic River Decisions, pages 2-105 to 2-113. The information was confirmed in the Richfield Field Office Record of Decision and Approved Resource Management Plan (USDI BLM 2008). Table 5 contains a list of river segments that have been found suitable and not suitable for designation.

**Table 5. List of river segment, miles, and suitability determination and tentative classifications for the Proposed RMP.**

<b>Richfield Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<b>Dirty Devil Complex</b>		
• Dirty Devil River	54.0	Not Suitable
• Beaver Wash Canyon	6.8	Not Suitable
• Larry Canyon	4.0	Not Suitable
• No Mans Canyon	7.1	Not Suitable
• Robbers Roost Canyon	31.0	Not Suitable
• Sams Mesa Box Canyon	9.5	Not Suitable
• Twin Corral Box Canyon	9.0	Not Suitable

<b>Richfield Field Office Record of Decision and Approved Resource Management Plan River Segment</b>	<b>Miles</b>	<b>Proposed RMP Tentative Classification</b>
<b>Fish Creek</b> • National Forest boundary to private land in T.30 S., R. 5 E., Sec. 5	0.25	Not Suitable
<b>Fremont River</b> • Fremont Gorge • Capitol Reef NP to Caineville Diversion	5.0 4.0	Suitable - Wild Not Suitable
<b>Maidenwater Creek</b> • T. 33 S., R.12 Sec. 33 to Sec. 36	3.0	Not Suitable
<b>Quitcupah Creek</b> • Public lands in T. 22 S., R. 5 E., Sec. 15 and 17	1.4	Not Suitable
<b>Total</b>	<b>135.05</b>	

## St. George Field Office (BLM)

The information for Table 6 was obtained from the St. George Field Office Record of Decision and Resource Management Plan (USDI BLM 1999), Appendix 6, Table A8-1, and the Final General Management Plan/EIS for Zion National Park (September 2001), Appendix F, Tables F-2 and F-3 (pages 414 to 415). Table 6 contains a list of river segments that have been found suitable for designation.

**Table 6. List of river segment, miles, and suitability determination and tentative classifications for the RMP.**

<b>St. George Field Office Record of Decision and Resource Management Plan River Segment</b>	<b>Miles</b>	<b>RMP Tentative Classification</b>
<b>Deep Creek</b> • Public land from DRA boundary to the north boundary of Zion National Park	7.37	Suitable - Wild
<b>Crystal Creek</b> • Public land portion to confluence with Deep Creek	4.01	Suitable - Wild
<b>Smith Creek</b> • Public land from source to Smith Creek's confluence with LaVerkin Creek	1.25	Suitable - Wild
<b>LaVerkin Creek</b> • Public land north of Zion National Park to northernmost private land parcel south of Zion National Park	7.38	Suitable - Wild
<b>North Fork Virgin River</b> • BLM-managed portion north of Zion National Park	0.74	Suitable - Wild
<b>Oak Creek</b> • Public land portion to Kolob Creek confluence	0.98	Suitable - Wild
<b>Kolob Creek</b> • Public Land east of Kolob Narrows to north boundary of Zion National Park	2.65	Suitable - Wild
<b>Virgin River, Segment B</b> • Portion of Segment B within the Beaver Dam Mountains Wilderness Area	1.34	Suitable - Wild
<b>Kolob Creek addition*</b>	0.4	Suitable - Wild
<b>Goose Creek*</b>	0.4	Suitable - Wild
<b>Shunes Creek* I</b>	1.0	Suitable - Wild
<b>Willis Creek*</b>	0.3	Suitable - Wild
<b>Beartrap Canyon*</b>	0.1	Suitable - Wild
<b>Middle Fork Taylor Creek*</b>	0.1	Suitable - Wild

\*Segment addressed in the Zion National Park General Management Plan (9/2001)

## Vernal Field Office (BLM)

The information for Table 7 was obtained from the Vernal Field Office, Proposed Resource Management Plan and Final Environmental Impact Statement (August 2008), Table 2.1.19 – Proposed RMP and Alternatives – Special Designations: Wild and Scenic Rivers (WSRs), pages 2-67 to 2-71. The information was confirmed in the Vernal Field Office Record of Decision and Approved Resource Management Plan (USDI BLM 2008). Table 7 contains a list of river segments that have been found suitable and not suitable for designation.

**Table 7. List of river segment, miles, and suitability determination and tentative classifications for the Proposed RMP.**

Vernal Field Office Record of Decision and Approved Resource Management Plan River Segment	Miles	Proposed RMP Tentative Classification
<b>Upper Green River</b> • From Little Hole to the Utah state line.	22	Suitable - Scenic
<b>Lower Green River</b> • Between public land boundary south of Ouray and the Carbon County line.	30	Suitable - Scenic
<b>Argyle Creek</b> • Between headwaters and Carbon County line	22	Not Suitable
<b>Bitter Creek</b> • Between Utah State line and private property	22	Not Suitable
<b>Evacuation Creek</b> • Between Utah State line and the White River	21	Not Suitable
<b>Green River - Middle</b> • From Dinosaur National Monument to the boundary of Ouray National Waterfowl Refuge	36	Not Suitable
<b>Nine Mile Creek</b> • Between Green River and Duchesne County line • Between Carbon County line and confluence with Gate Canyon	13 6	Not Suitable
<b>White River</b> • Segments A, B, and C	44	Not Suitable

## Grand Staircase-Escalante National Monument (BLM) \_\_\_\_\_

The information for Table 8 was obtained from the Grand Staircase-Escalante National Monument, Management Plan (February 2000), Table A4.1 – Escalante River System Suitable Segments, pages 104 to 110. Table 8 contains a list of river segments that have been found suitable for designation.

**Table 8. List of river segment, miles, and suitability determination and tentative classifications for the Management Plan.**

Grand Staircase-Escalante National Monument Management Plan River Segment	Miles	Management Plan Tentative Classification
<b>Escalante River System Suitable Segments</b>		
<b>Escalante River-1</b> • Confluence with Pine Creek (T35S, R3E, S9) to Highway 12 (T35S, R4E, S12)	13.8	Suitable - Wild
<b>Escalante River-2</b> • Highway 12 to east side of private land (T35S, R4E, S13)	1.1	Suitable - Recreational
<b>Escalante River-3</b> • Private land to boundary (T36S, R6E, S4)	19.2	Suitable - Wild
<b>Harris Wash</b> • T36S, R5E, S35 to Monument boundary (T36S, R5E, S36)	1.1	Suitable - Wild
<b>Lower Boulder Creek</b> • Downstream side of T34S, R4E, S11 to Escalante River (T35S, R5E, S22)	13.5	Suitable - Wild
<b>Slickrock Canyon</b> • Monument boundary (T33S, R5E, S22) to Deer Creek (T33S, R5E, S33)	2.8	Suitable - Wild
<b>Lower Deer Creek-1</b> • Slickrock Canyon (T33S, R5E, S 33) to Burr Trail Road (T34S, R5E, S16)	3.8	Suitable - Recreational
<b>Lower Deer Creek-2</b> • Burr Trail Road to Lower Boulder Creek (T35S, R5E, S9)	7.0	Suitable - Wild
<b>The Gulch-1</b> • Monument boundary (T32S, R6E, S32)to Burr Trail Road (T34S, R5E, S13)	11.0	Suitable - Wild
<b>The Gulch-2</b> • Along Burr Trail Road to T34S, R5E, S13	0.6	Suitable - Recreational
<b>The Gulch-3</b> • Below Burr Trail Road to Escalante River (T35S, R5E, S36)	13.0	Suitable - Wild
<b>Steep Creek</b> • Monument boundary (T33S, R5E, S24) to The Gulch (T34S, R5E, S12)	6.4	Suitable - Wild
<b>Lower Sand Creek and tributary Willow Patch Creek</b>	13.2	Suitable - Wild

<b>Grand Staircase-Escalante National Monument Management Plan River Segment</b>	<b>Miles</b>	<b>Management Plan Tentative Classification</b>
• Sweetwater Creek (T34S, R4E, S8) to Escalante River (T35S, R4E, S10)		
<b>Mamie Creek and west tributary</b> • Monument Boundary (T34S, R3E, S16) to Escalante River (T35S, R4E, S7)	9.2	Suitable - Wild
<b>Death Hollow Creek</b> • Monument boundary (T34S, R3E, S3) to Mamie Creek (T34S, R3E, S36)	9.9	Suitable - Wild
<b>Calf Creek-1</b> • Headwaters (T34S, R4E, S10) to Lower Calf Creek Falls (T34S, R4E, S24)	3.5	Suitable - Wild
<b>Calf Creek-2</b> • Lower Falls to Calf Creek Recreation Site (T35S, R4E, S1)	3	Suitable - Scenic
<b>Calf Creek-3</b> • Recreation Site to Escalante River (T35S, R4E, S12)	1.5	Suitable - Recreational
<b>Twenty-five Mile Wash</b> • T37S, R6E, S2 to Monument boundary (T37S, R6E, S25), does not include unnamed tributary on north side	6.8	Suitable - Wild
<b>Paria River System Suitable Segments</b>		
<b>Upper Paria River - 1</b> • Little Dry Valley (T38S, R2W, S21 to T41S, R1W, S7)	21.7	Suitable - Wild
<b>Upper Paria River - 2</b> • T41S, R1W, S7 to downstream side of private property south of Highway 89 (T42S, R1W, S28)	16.9	Suitable - Recreational
<b>Lower Paria River - 1</b> • Downstream side of private property (T43S, R1W, S10) to Wilderness boundary (T43S, R1W, S23)	3.3	Suitable - Recreational
<b>Lower Paria River - 2</b> • Segment in Wilderness (T43S, R1W, S23 to T44S, R1W, S12)	4.8	Suitable - Wild
<b>Deer Creek Canyon</b> • Headwaters (T40S, R3W, S1) to Paria River (T40S, R2W, S4)	5.2	Suitable - Wild
<b>Snake Creek</b> • Entire (T39S, R2W, S26 to T40S, R2W, S10)	4.7	Suitable - Wild
<b>Hogeye Creek</b> • Entire (T40S, R2W, S 1 to T40S, R2W, S26)	6.3	Suitable - Wild
<b>Kitchen Canyon</b> • T40S, R2W, S28 to Starlight Canyon (T40S, R2W, S34)	1.3	Suitable - Wild
<b>Starlight Canyon</b> • Entire (T41S, R2W, S7 to T40S, R2W, S35)	4.9	Suitable - Wild
<b>Lower Sheep Creek</b> • Bull Valley Gorge (T39S, R2W, S7) to Paria River (T39S, R2W, S17)	1.5	Suitable - Wild
<b>Hackberry Creek</b> • Top (T38S, R1W, S29) to Cottonwood Creek	20.1	Suitable - Wild
<b>Lower Cottonwood Creek</b> • Confluence with Hackberry Creek to Paria River	2.9	Suitable - Recreational
<b>Buckskin Gulch/Wire Pass</b> • Wilderness boundary (T43S, R2W, S15) to Paria River (T44S, R1W, S12)	18.0	Suitable - Wild

## Natural Bridges National Monument (NPS) \_\_\_\_\_

Natural Bridges National Monument determined suitability as documented in the Natural Bridges National Monument, Utah Draft Environmental Impact Statement and General Management Plan, September 1995, Appendix D, page 141, Suitability. Table 9 contains a list of river segments that have been found suitable for designation.

**Table 9. List of river segment, miles, and suitability determination and tentative classifications for the Management Plan.**

<b>Natural Bridges National Monument Management Plan River Segment</b>	<b>Miles</b>	<b>Management Plan Tentative Classification</b>
<b>White Canyon creek, along with its tributary— Armstrong Canyon Creek</b>	7.0 5.2	Suitable – Classified as Wild during eligibility

## Zion National Park (NPS)

Zion National Park determined suitability of rivers segments as documented in the Zion National Park General Management Plan and Record of Decision, June 2001, Appendix E, Table 2, pages 80 to 82.

Table 10 contains a list of river segments that have been found suitable for designation.

**Table 10. List of river segment, miles, and suitability determination and tentative classifications for the Management Plan.**

Zion National Park General Management Plan River Segment	NPS Miles	BLM Miles	Total Miles	Management Plan Tentative Classification
<b>North Fork Virgin, above Temple of Sinawava</b>			10.0	Suitable - Wild
• Kolob Creek (including BLM Segment)	2.9	0.4	3.3	Suitable - Wild
• Goose Creek (including BLM Segment)	4.2	0.4	4.6	Suitable - Wild
• Imlay Creek	2.7	-	2.7	Suitable - Wild
• Orderville Canyon	3.5	-	3.5	Suitable - Wild
• Deep Creek	0.8	-	0.8	Suitable - Wild
• Mystery Canyon	1.4	-	1.4	Suitable - Wild
<b>Total</b>	<b>25.5</b>	<b>0.8</b>	<b>26.3</b>	
<b>North Fork Virgin, below Temple of Sinawava</b>	8.0	-	8.0	Suitable - Recreational
• Birch Creek Canyon	2.3	-	2.3	Suitable - Wild
• Pine Creek (Excluding the segment below the lowest switchback west of the tunnel on Zion-Mt. Carmel Highway)	4.6	-	4.6	Suitable - Wild
• Pine Creek (Below the switchback to the confluence with the North Fork Virgin)				Suitable - Recreational
• Oak Creek (including BLM Segment)	2.8	-	2.8	Suitable - Recreational
• Heaps Canyon	2.8	-	2.8	Suitable - Wild
• Behunin Canyon	1.9	-	1.9	Suitable - Wild
• Echo Canyon	2.5	-	2.5	Suitable - Wild
• Clear Creek	6.4	-	6.4	Suitable - Recreational
<b>Total</b>	<b>31.3</b>	<b>0</b>	<b>31.3</b>	
<b>East Fork Virgin River</b>	8.0	-	8.0	Suitable - Wild
• Shunes Creek (including BLM segment) excluding the segment from the water diversion to the western Park boundary)	2.0	1.0	3.0	Suitable - Wild
• Shunes Creek (From the western Park boundary to the water diversion)				Suitable - Recreational
<b>Total</b>	<b>10.0</b>	<b>1.0</b>	<b>11.0</b>	
<b>North Creek</b>	17.5	-	17.5	Suitable - Wild
• Wildcat Canyon	2.8	-	2.8	Suitable - Wild
